Allowable Subject Matter

Claims 1,3 and 6-8 are allowed.

The following is an examiner's statement of reasons for allowance: The closest references are Phelps'862 and Kline (US 1,488,125).

Phelps teaches the vacuum controlled spray system, but has separate nozzles for the vacuum and the spray. The claimed invention (claim 1) uses a single nozzle for the vacuum and the spray.

The Kline system is similar to the claimed invention, except that the valve (16) which is equivalent to valve (V4) of the claim is a check-valve, which would prevent formation of vacuum in the tank (5).

There is no suggestion in any reference to combine any of the references to arrive at applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
